

## 405 Brand

The same product as  
TSB 100 Blend

### Product Description

This brand alfalfa is a proven, high quality alfalfa that dairy producers desire. Its disease resistance rating of 29/30 allows producers to plant their alfalfa crop under a variety of conditions and soil types. This blend produces persistence, quality forage and winter hardiness. 405 Brand is a long rotation alfalfa with several years of proven performance.

Winter Survival	WS 2.0
Fall dormancy	FD 4
Apex seed coating	✓

### Why Apex?

Apex coated seed consistently outperforms raw seed under less than ideal conditions. When seed is planted too deep or too shallow, or when weather conditions are too cold, too hot, too wet or too dry, seed coated with Apex has the definite advantage. Apex provides more uniform stands, improved seedling emergence & survival, and the potential for highest yields.

S= Susceptible LR= Low Resistance  
MR= Medium Resistance R= Resistance  
HR= High Resistance
